Wide Suspension and Modified C-Frame Structure are Suitable in Multi-Stage Operation

High Rigidity Semi-side Frame
- 8-side Guide Rib side over 300 ton
- Box-shaped slide of rigid steel structure
- Employing six-gib guides enables prolong tooling life and maintain accuracy of final products.
- Protecting front opening structure.
- Combined with Tie-Rod (over MC2-500 ton)

Wide Suspension Points
- Wide suspension points offer maximum availability of table use and applicable in wide range of operation.
- Enhanced the off-center load allowance and minimized deflection.

Gear Driving System
- Machine assures quiet operation thanks to gearing improvement.

Wet Type Clutch & Brake

User Friendly Operations

Modified C-Frame
Double Crank Press
MC2-Series

Standard Accessory
- Built in Operation Panel
- Electromotive Slide Adjustment Device
- Automatic Lube System
- Both Hand Push Button
- Light Curtain
- Hydraulic Overload Protector
- Digital Angle Indicator
- Electronic Cam Switch (15 X Arrows, 3 point Arrows)
- Anti-repeat Circuit
- Total Counter
- Motion Detector (Approach Switch)

Option
- Tactile Indicator
- Die Cushion
- Air Ejector
- Anti-vibration Pads
- Quick Die Change System (Q.D.C System)
- Inverter Motor
- Digital Angle Display
